

Το νέο τεύχος του Journal of Musculoskeletal and Neuronal Interactions είναι online

2011-06-28 13:42:58

Μήνυμα του εκδότη

□ □ The June issue of The Journal of Musculoskeletal and Neuronal Interactions features a Special Issue on tendons, which was edited by Stuart Warden (Indianapolis). Stuart did an excellent job of bringing together contributions from top expertes in the field.

And don't forget: JMNI is on its way to receive its first Impact Factor in 2012. So if you find an interesting article in JMNI, don't hesitate to cite it!
